

Application for an ACP Membership

When applying for an ACP membership, please review the acceptance criteria at www.acp.uni-jena.de/membership.

Along with this application form, kindly add the following documents

- a selection of major publications demonstrating your photonics-related work;
- a short personal statement giving your major motivation to join ACP, including the main research topics and partners you wish to collaborate within ACP.

Type of membership

- A) I am a professor or junior professor at the Friedrich Schiller University and I apply for a regular ACP membership.
- B) I am a professor or junior professor, but not a member of the Friedrich Schiller University Jena, and I apply for an extraordinary ACP membership.
- C) I am a member (neither professor nor junior professor) of the Friedrich Schiller University Jena and I apply for a regular ACP membership.*

*In case of C), your independent research group leadership has not necessarily been covered yet by a professorship or appointment-related academic procedure. Thus, kindly add a short CV demonstrating your photonics-related work and a comprehensive personal statement explaining your current status as a (largely) independent research group leader with substantial overlap to photonics.

Personal Data

Full name, academic title _____

Affiliation _____

Business address _____

Business phone number _____

Email _____

Abbe Center of Photonics | JENA

Friedrich-Schiller-Universität

I declare that I agree with ACP's statute (see www.acp.uni-jena.de/membership). In case that a regular ACP membership is approved, I will use the ACP affiliation (along with my existing affiliations) in my future scientific publications. I also agree that my doctoral students are affiliated with ACP's integrated Abbe School of Photonics upon their individual registration in the Doc-In database of the Friedrich Schiller University Jena.
